

Hearing delight is understanding

Phonak was first to introduce zoom technology to enhance understanding in challenging hearing situations. The new Phonak Solana makes understanding even more effective thanks to further improvements in the exclusive zooming technology.

Phonak Solana zoom technology:

UltraZoom Advanced

In noisy situations with several people talking around you, UltraZoom automatically zooms to the voices coming from the front. Noise from the side and back is cut out.

ZoomControl

When you cannot easily face the speaker, e.g. in a car, ZoomControl can be selected to zoom to either side, the back or the front for effortless understanding.

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

Interact freely. Communicate with confidence. Live without limit.
Life is on.

Hearing delight is connecting to everyone

With Phonak wireless accessories, multimedia entertainment, communication and work is much more fun. TV, telephone, MP3 player, GPS and computers can be enjoyed effortlessly.

Connecting the Phonak TVLink with your Phonak Solana brings TV sound directly to your ears, so you and your family can adjust the volume separately and enjoy watching TV together.

Please ask your hearing-care professional to show you what the amazing Phonak wireless accessories can do.
