## Technical Data

# Phonak EasyCall II

Phonak EasyCall II connects Phonak wireless hearing aids to a cell phone. It is permanently attached and connected to the phone and streams the conversation directly to both hearing aids for unmatched sound quality and maximum speech understanding.

## Description

| 1 | Call button with light indicator |
| 2 | Micro-USB charging input |
| 3 | Microphone opening |
| 4 | Cell phone scratch protection ring |
| 5 | Optional adhesive tape |

## Feature overview

- Unpack and use: no fitting required
- Works with any Bluetooth enabled cell phone, even non-smartphones
- Attached onto the cell phone, never lost or forgotten
- Up to 10 hours talk time
- Up to 10 days standby time

## Compatibility

- Use Phonak EasyCall for Spice and Quest wireless hearing aids
- Use Phonak EasyCall II for Venture wireless hearing aids

## General information

| Dimensions: | L x W x H: 69 x 45 x 12 mm (2.7 x 1.8 x 0.5 inches) |
|---|---|
| Weight: | 24 g (0.71 oz.) |
| Color: | Black |
| Operating conditions: | The product has been designed for trouble-free operation without restrictions when used as intended, unless otherwise stated in the user guide<br>0° to 40° Celsius (32° to +104° Fahrenheit) and relative humidity of <85% (non condensing) |
| Transport and storage conditions: | –20° to 60° Celsius (–4° to +140° Fahrenheit) and relative humidity of <70% for a long period of time. Transport: <90% (non condensing) |

## Status light

| Switching on: | | Green for 2 seconds |
|---|---|---|
| Switching off: | | Red for 2 seconds |
| Bluetooth pairing mode: | | Rapid blue blink |
| During phone call: | | Solid blue |
| Bluetooth connected: | | Blink blue every 5 seconds for 1 minute |
| On and ready to connect: | | Blink green every 5 seconds for 1 hour |
| Low battery warning: | | 13 short red blinks every minute |
| | | 13 short red blinks after pressing the button when not in call |
| | | (approximately 1 hour talk time left after first low battery indication) |
| Charging: | | Solid red |
| Fully charged while charger attached: | | Solid green when charging is complete<br>**Note:** Charging state is not visible during phone call |

# Bluetooth pairing information

Press and hold the call button (2 seconds) to switch EasyCall II on or off.

If EasyCall II has never been paired, it will automatically be in pairing mode for 60 minutes after turning on. This is indicated by a rapidly blinking blue indicator light.

To manually start pairing mode, press and hold the call button for 10 seconds until the indicator light starts to rapidly flash blue.
On the phone, select "Phonak EasyCall II" from the list of Bluetooth devices and enter code "0000" if prompted.
