

eAudiology: Why and how to leverage digitalization in audiology

A 12 month webinar series by the Phonak expert circle

Webinar

12

App-based hearing aid adjustments in real-life, by Dr. Christine Jones*

Study on self-adjustment app
(PARC)²

AutoSense OS
vs.
self-adjusted settings

Objective
measurements =
no major difference

Participants mainly used
app to self-adjust

Volume

Noise reduction

Speech focus

Participants did not change many settings themselves, but felt confident knowing they could.
