When your hearing aids adapt to every sound automatically, life is on

Sound is all around and changes constantly depending on where you are. This is what makes listening a real challenge and the task hearing aids have to perform very complex.

What makes Audéo B so special is a **unique operating system** called **AutoSense OS**. It **senses your surroundings** and **adjusts your hearing aids every step of the way**. Just turn them on and the rest is **automatic**.

It doesn't matter where you are or what you're doing. The Audéo B hearing aids were created to simplify your life.

More hearing performance in situations where you need it the most

Understand more in noise

60% improvement in speech understanding by zooming in on a single voice in a noisy environment — versus without hearing aids.⁴

Better speech understanding

20% better speech understanding thanks to the automatic selection of the best settings for everyday listening situation.^{2,3}

Hearing in the car

37% reduction in effort when listening to conversations in the car — compared to prior technology.⁵

Hear quiet voices

10% improvement in soft speech understanding with our newest products.⁶

Natural music experience

Top rated hearing aid for music sound quality.⁷

Phonak Audéo B-R

Free yourself from the hassles of disposable batteries.

Phonak Audéo™ B-R is the first ever hearing aid to feature a specifically designed **built-in lithium-ion rechargeable battery** that provides a full day of hearing with one simple charge.

Phonak Audéo B-R rechargeable hearing aids combine the latest high-performance technology with **groundbreaking battery technology**.

No more hassles with disposable batteries that are small and difficult to handle. Now you can enjoy the freedom and confidence of knowing that Audéo B-R is conveniently charged and ready to accompany you through the day.
