Hearing delight is understanding

Phonak was first to introduce zoom technology to enhance understanding in challenging hearing situations. The new Phonak Cassia helps understanding even more thanks to further improvements in its zooming technology.

Phonak Cassia zoom technology:

UltraZoom Standard

In noisy situations with several people facing you, UltraZoom automatically zooms in on their voices. Noise from the side and back is reduced.

Hearing delight is connecting to everyone

With Phonak wireless accessories, using the phone
TV, computer, GPS and MP3 player is much more
enjoyable.

Connecting the Phonak TVLink with your Phonak
Cassia brings TV sound directly to your ears, so you
and your family can adjust the volume separately
and enjoy watching TV together.

Please ask your hearing-care professional to show
you what the amazing Phonak wireless accessories
can do.
