

DID YOU KNOW that 51% of hearing aid buyers say that having hearing insurance / benefits would motivate them to make a purchase sooner¹?

Why Join Amplifon Hearing Health Care?

Nation's Leading Hearing Health Care Program

We cover more than 100 million Americans for 100+ partners, including more than 60 regional and national health plans and 50 labor organizations.

Superior Customer Care

Personalized onboarding, ongoing webinars, and consistent check-ins

Quality Referrals

The majority of our referrals have a funded benefit, resulting in a lower out-of-pocket cost

Wide Product Selection

Brands you know and trust, including: Oticon, Phonak, ReSound, Rexton, Signia, Sonic Innovations, Starkey, Unitron, and Widex.

Simple Processing

Our online referral management system gives you easy access to the information you need.

Who do we serve?

Discount Plans

Delivered via a wellness program, this benefit entitles the member to hearing aids and related services at discounted prices, negotiated by Amplifon and the company's insurance carrier. Many of these programs are offered on a nationwide basis.

Funded Plans

A funded plan means that the insurance covers all or part of the charges for hearing aids and related services. Amplifon will process the hearing aid claim on your behalf.

Workers' Compensation Plans

A state-mandated benefit for employees who suffer a work-related hearing loss and require hearing healthcare services and hearing aids; it typically covers the full cost of mid-range products.
