Preferences

- If necessary, may we change the following: Please Call
- Yes No
- xUP/xSP plus to xP **OR** xP to xS *if audiogram permits*
 - Build larger if required

Measuring Tips

1. Make sure you are using the Phonak measuring tool
2. Make sure Receiver/SlimTube length measuring tool is parallel to the floor (straight on top of the ear)
3. Do not apply pressure to the tool (let it sit on the ear)
4. Use block colors to determine size (if on the line, use the smaller size)
5. Measure to the top of the ear canal opening

Special Instructions

Phonak LLC is not responsible and assumes no liability for any non-Phonak manufactured device or accessory sent by you to Phonak. Please ensure that you only include Phonak devices and accessories herein.
